MEMORANDUM FOR: The Director

**SUBJECT: Attached Letters to Senators Humphrey
and Neuberger**

STAT has recommended that the Director's replies to letters from Senators Humphrey and Neuberger be worded in as general a manner as possible. The Humphrey letter raises some problems, because it requests specifics. The Director will note that the letter to Humphrey offers to discuss the matter further with him. I am inclined to think this offer is desirable, as it may provide an opportunity to educate the Senator on certain activities which this Government is carrying on and which he may not know about. On the other hand, we must recognize that he is one of the most outspoken critics of the present conduct of foreign policy, and it may be that further conversations at this stage of the political game might be inadvisable.
